Staff Guidelines

- Staff Image - It's important that staff maintain an air of responsibility and maturity. Chat spamming, griefing, kick wars, mute wars, random jailing, etc. should not occur.
- Communication - Please, communicate with each other, use the forums. Teamwork is what will keep this server stable. You must actively take part in discussions, especially those in the staff chats, as important issues about the future of the server is discussed.
- Community activeness – We don't force our staff to be active all the time, but it is expected that staff are active at least every 2-3 days, unless stated otherwise. Other commitments, schoolwork and e.t.c should always be placed before our server.
- Discord - Please be responsible in the Discord, do not flame, insult, or belittle users on the discord server. Do not delete messages, kick users. Only delete posts if they're inciting flame wars or are completely irrelevant in an important chat.
- Player Assistance - If a player is asking for reasonable assistance that you can provide some or all of, do so. Do not wait until someone else gets on, help them out. It's part of being a staff member, and helps everyone out.

Staff Rules And Regulations

1. Staff members on the server must follow all posted rules and are subject to the same disciplinary actions and removal of rank and staff status.
2. Staff is expected to treat every player and fellow staff member on the server and community with kindness and respect regardless of their rank and personal feelings toward the player.
3. When a staff member is free, they are expected to help out another staff member who is busy or in need of help.
4. If there is an issue on the server amongst players, or issues with the server itself, staff members are expected to try to help solve the issue to the best of their ability.
5. All staff members are expected to use common sense at all times and use their best judgment when dealing with things on the server.

Disciplinary Actions

When a staff member breaks one of these rules, or is not living up to the expectations placed on them, then they are removed from their staff rank and responsibilities. They are also subject to the same disciplinary actions if they break any of the initial player rules.

As much as we would like to believe that the Retro Lands staff is perfect, we understand they are human and that they might do some things that make the players feel they have been cheated in some way. If a player makes a complaint about a staff member, these are the steps to be taken to correct the issue. If a player makes a valid complaint against a staff member, the staff member's rank and building rights are suspended until they can be contacted by the Owner of the server to be questioned.

Staff Rank Expectations

Your job as a staff member is to moderate cheaters, keep chat clean, assist people in Discord & contribute to the server.

Helper - job is to ensure that chat is non-toxic by muting those who do violate the chat regulations and assisting those who are in need of help.

Senior Moderator / Moderator - Despite subtle differences between permissions and seniority, all three ranks have the same jobs and expectations. A moderator has banning, fly, and vanish abilities.

Admin - Administrator is given to staff members who have proven themselves as dependable and trustworthy people throughout the time they've been apart of the network.

Punishments

Staff members may and should adjust punishments based on their judgment and the situation occurring. If you are confused, please ask/contact another staff member.

Griefing

Staff should always be carefully when investigating griefs and understand the full situation. Many “Griefs” are false reports, with the Griefer often being known to the player such as a friend, or the Owner/Assistant of the town. Town Owners hold the right to remove/edit players builds as long as players items are preserved. If there is any doubt, contact a higher staff member.

- Small Grief: Tempban 3 Days
- Medium Grief: Tempban 7 Days
- Large Grief: Tempban 2 Weeks
- 2nd Offence: Perm Ban

The offences should be adjusted to the situation, as a player returning on an alt (Alternative Account) should be permanent banned. If the player has just joined, and grieved a Perm ban should be used.

Inappropriate Conduct In Chat

Inappropriate Conduct In Chat can include a wide variety of offences and again should be dealt with, with knowledge of the situation and prior events. Staff may deem other actions by players breach this conduct, and they may act accordingly.

- Racism: 24 Hour Mute
- Over Use Of Swearing: Warning, 24 hour mute if they continue.
- Advertising

- Mass Advertising (Account Joins And Spams IPs/Links To Join another server, or a link for a service): Perm Ban and Ip Ban
- Non Mass Advertising (A player joins, and casually asks players if they want to join another server to see their build or e.t.c): The player should be warned, and if they continue a tempban should be place.

- Spamming

Spamming is a serious offense, and should always be fought with the highest actions. Spamming is the sending of the same message over and over, or the sending of useless and unrelated messages. If the person is spamming invites for another server, they should be perm banned and be ip banned. If they are a new user, a perm and ip ban should also be used. If it's a known/old player, a 7 day Temp Ban should be used.

The logo for Retro Lands is a stylized, metallic-looking banner with a central diamond-shaped emblem containing a cyan diamond. The text "RETRO LANDS" is written in a bold, white, sans-serif font across the center of the banner.
